

5M (16'4)

SAFETY TAPE

A versatile piece of safety kit that rolls up compactly and fits neatly in PFD front pocket. Ideal for use in rescue situations. Can also be stored inside Northern Divers Lug Pouches.

The tape has many uses in rescue situations and can be used as a sling, towline or short throwline as well as an anchor for tying rescued boats to the shore.

Great on the sea and river the tape features a loop at one end with reinforced stitch points making it easy and knot-free to use with a carabiner.

Material: nylon tape
Breaking strength: 10kN
Length: 5m (16'4)
Width: 25mm (0.9")
Colour: yellow
Single sewn loop on one end
Velcro fastner
Weight: 188g (0.42lbs)

This flexible piece of safety kit fits neatly into your buoyancy aid pocket when kayaking, SUPing, canoeing and rafting as well!
