

GUARDIAN FLIGHT TRAVEL BCD

The lightweight version of the Guardian BCD, weighing in at less than 3kg. Great as a travel or backup BCD. This BCD isn't short of features. These include fifteen CETL plastic D-rings, two generous zipped pockets and four air dumping methods. There's also two integrated quick-release weight pockets.

The Guardian Flight has all-new features and extras: our ergonomically designed power inflator system, Moulded Protection Plate, sliders for vertical adjustment of the chest strap, a removable reflective pocket for our Flexi-Light, and a removable bungee cord with a split ring attachment point.
