

PORTABLE RESCUE SCENE LIGHT

The ideal piece of kit for Search And Rescue Response teams to illuminate a scene of an emergency incident at night.

The compact unit is perfect for confined spaces, riverbanks and canals. The mast extends to a maximum height of 1.6m (5'2), enabling rescue teams to shine the beam over larger areas of ground.

With a 120 degree rotation head light and up to 1800 lumens the entire emergency area will have all the light you need for a safe and swift rescue operation.

FEATURES

- High/low switch
- 120° rotating head
- 12° spotlight or 60° flood light
- Waterproof design (IPX5)
