

1.7M (5'6)

RESCUE WADING POLE

Our rescue wading poles are compact, robust and lightweight. An essential depth and stability aid for wading through deep waters and unknown terrain our rescue wading poles are a must for any flood team.

The Rescue Wading Pole is one of the most popular essentials in search and rescue efforts in and around water. It is used by many of the leading rescue services in the UK and has had a huge amount of positive feedback due to its assistance it gives when wading through waters. The Wading Pole operates in the most severe of conditions.

Designed in a highly visible orange and floats to ensure you pole does not get lost!

Considering the frequency of flooding around the world over recent times we believe Rescue Teams and Services around the world should always have a Wading Pole at their side when wading through unknown terrain and deep waters.

Used by Public Safety Dive Teams, SAR Teams, Fire Departments, etc

Length: 1.7m (5'6)
